Orders on the plans and estimates for the work of construction of miles 0 to 44 of the —

GOVERNMENT OF BOMBAY.

PUBLIC WORKS DEPARTMENT.

Resolution No. 9194/36.

Bombay Castle, 5th April 1949.

Read letter No. Gh. L. B/54, dated the 12th January 1948, from the Superintending Engineer, Special Investigation Circle.

Letter No. Gh. L. B/182, dated the 28th January 1948, from the Superintending Engineer, Special Investigation Circle, as under :—

" *Reference.*—This Office letter No. Gh. L. B. 54, dated the 12th January 1948.

" 2. Plans and estimates, the latter amounting to Rs. 4,83,38,2?0 for constructing miles 1 to 44 of Ghataprabha Left Bank Canal with branches and distributaries in that length are submitted herewith for favour of administrative approval, technical sanction and permission to start works.

" 3. Administrative approval to this project is requested at this stage as a Monsoon Irrigation Scheme and as a measure for food and fodder drive. It will be seen that even with the present rates for irrigation of Monsoon food crops, it will give a return of 0·80 per cent. with duties as obtained in actual practice and which can be guaranteed. If duties were assumed to be in keeping with the old practice (e g. N. V. D. Project 1922 and nearly all Irrigation Projects), the return will be nearly 1½ per cent. Actually even a higher water-rate is fully justified and it should be possible to have a return of 3 per cent. on capital. As this canal is going to be ultimately a part of the Daddi Scheme, the immediate construction of this canal is a step in the right direction.

" 4. Regarding technical sanction, it may be stated that plans and estimates for quantities are the same as those submitted to Government in 1924. The Nira Right Bank Canal was under construction prior to that and every technical feature was fully discussed in the light of experience obtained on the then existing canals like Nira Left, Mutha, Godavari, Pravara and Girna and the newly constructed Nira Right Bank Canal. The plans and estimates were prepared under the general instructions of the Superintending Engineer, Deccan Irrigation Circle, and were then checked in his office. Actually Mr. S. G. Dravid and Mr. (now Rao Bahadur) R. B. Karandikar, both of whom have now retired, scrutinised these in the office of the Superintending Engineer, Deccan Irrigation Circle.

" 5. It is true that in Government Resolution, Public Works Department No. 654, dated the 10th March 1926, Government ordered the Daddi Project of 1925 to be shelved for reasons reported upon by the Superintending Engineer, Deccan Irrigation Circle, in his letter No. 1088, dated the 3rd March 1925, and by the Commissioner in his letter dated the 15th December 1925. None of the reasons, however, hold good in the case of the present proposal for a monsoon canal for miles 1 to 44. This is shown below :—

Serial No.	Objections recorded in Government Resolution No. 654 of 10th March 1926 against Daddi Project 1925.	Remarks about food fodder project for Ghataprabha Left Bank Canal miles 1 to 44.
1		3
1	25,000 acres of land, with a large percentage of rice land submerged in lake.	No rice fields will be submerged except a few for the 1000 M. Cft. reservoir.
2	Native States would not agree to proposals about distribution of water and the water rates proposed.	Most of the States are on the point of merging in the Bombay Province. Besides in the meeting held last year by Mr. C. G. Kale, late Chief Engineer, Public Works Department, they agreed to participate in the advantages of irrigation. Kolhapur had some grievance about lands to be submerged but in the case of this project that difficult problem does not arise.
3	Lands unsuitable for irrigation of cane ...	The project proposes only monsoon food crops and not cane.
4	The project was opposed because it did not pay 6 per cent. as required for a "Productive Irrigation Scheme".	The present scheme is a "Protective Irrigation Scheme". It is, therefore, essential and inescapable in view of Bombay's annual shortage of 800,000 tons.

"6. The only change now made is in rates and this is done in accordance with orders from Government (*vide* Government Letter, Public Works Department No. 8621/36-C(II), dated the 25th May 1947), viz., by providing rates equal to 1938-39 rates *plus 100 per cent.* Provision is made for establishment and special tools and plant after considering actual requirements.

"7. The only additional item to the project of 1924 is that of a storage reservoir for 1000 M. Cft. and for which a lump sum of Rs. 30 lakhs, has been made at Rs. 3,000 per M. Cft. Actually there will be no occasion to construct this storage reservoir as it is hoped the dam on Ghataprabha with a storage of 45,000 M. Cft. will be constructed at or near Daddi. This provision of Rs. 30 lakhs is meant only to show that a monsoon food crops scheme was feasible even without the large storage tank.

"8. There is full justification for starting construction of the scheme immediately :—

(*a*) as a Monsoon Food Crops Scheme,

and (*b*) whether the proposed Daddi Project is ultimately taken up or not.

Karnatak has suffered in the past for want of Irrigation Schemes of the magnitude of first class Major Irrigation Schemes. It is highly desirable to make up for this delay by immediately starting the construction of the Ghataprabha Left Bank Canal.

"9. The Project (Monsoon Food Crops Scheme) proposes compulsory irrigation. Any theoretical discussions on the introduction of this reform or on the possibility or advisability of any other method of distribution of water need not delay the construction of the Ghataprabha Left Bank Canal. There will be time enough for that during the period of construction, which will be three years.

"10. The fact is Bombay is deficit in food and this project will make up a shortage of 40,000 out of the huge existing shortage of 800,000 tons of food grain annually. This and such other food crop canals have, therefore, got to be constructed, whatever be the method of distribution of water, viz. :—

(i) Isolated individual sanctions as at present
or (ii) Compulsory and concentrated irrigation as proposed
and (iii) Types of crops whether rice or jowar.

and

whatever may be the financial return expected and the method of charging water rates, viz. :—

(i) Betterment tax over lands
or (ii) Irrigation cess
and (iii) Water rates in addition to (i) and (ii).

The theoretical discussion on these and such points, and the final decision thereon, must not delay the construction of this project.

"11. I now request favour of very early (and as far as possible immediate) administrative approval and technical sanction to the plans and estimates costing Rs. 4,83,38,280 for miles 1 to 44 of Ghataprabha Left Bank Canal and branches and distributaries in that length. Permission to start work and open a Construction Division is also requested with the least possible delay. It is very desirable to do so by the beginning of March 1948."

Read endorsement No. 498-G, dated the 29th March 1948, by the Director of Agriculture.

Read endorsement No. IRR-433, dated the 28th April 1948, by the Commissioner, Southern Division.

Read Government Letter No. 9194/36-I.B.(II), dated the 16th August 1948, to the Superintending Engineer, Special Investigation Circle.

RESOLUTION.—Government is pleased to accord administrative approval and technical sanction to the work of constructing the first 44 miles of the Ghataprabha Left Bank Canal amounting to Rs. 5,45,22,964 as detailed below:—

Direct charges.

	Rs.
(*i*) Works	3,99,80,944
(*ii*) Establishment	92,52,780
(*iii*) Tools and Plant	11,56,598
(*iv*) Leave and Pensionary charges	6,93,959
Total direct charges ...	5,10,84,281

Indirect charges.

(*i*) Capitalisation of abatement of land revenue	53,150
(*ii*) Audit and Account charges	3,85,533
Total indirect charges ...	4,38,683
Plus cost of storage tank inclusive of establishment and tools and plant, etc., charges	30,00,000
Grand total ...	5,45,22,964

2. The expenditure on the work should be debited to the head "6^{a}-A—Irrigation Works (2) Unproductive—Post-War Reconstruction and Development Programme".

3. This scheme forms a part of the Daddi Dam Project and the estimate approved in paragraph 1 above should, therefore, be included in the consolidated estimate to be prepared for the complete Daddi Dam Project.

By order of the Governor of Bombay,

K. V. JOGLEKAR,
Deputy Secretary to Government.

BR/24-9.
Compd.by:

No. G-108

Office of the Superintending Engineer,
Karnatak Irrigation Circle,
Dharwar, 25th Sept.1949.

To

The Secretary to Government,
Public Works Department,
Bombay-1.

Subject: Opening of an additional Division for the Ghataprabha Left Bank Canal Works.

The Project for construction of the Ghataprabha Left Bank Canal costing Rs. 5,45,25,964/- was sanctioned in Government Resolution No.9194/36, dated the 5th April 1949 as monsoon Irrigation Scheme to promote food & fodder drive. The actual construction of the canal work was started in June 1949. Being a food & Fodder Scheme, Government desired that the work should be completed in about 5 years, if not earlier.

2. The canal work consists of nearly 18.5 lakhs brass of excavation and earthwork (both cutting and embankment) distributed over a length of about 75 miles, in addition to 200 masonry works such as -

8 aqueducts
62 culverts
68 nala diversions
28 road bridges
8 escapes

and several more head regulators etc. which also are not of small magnitude. Excavation of the canal itself is not an easy job as hard rock is met with, within shallow depths practically throughout the length of the canal and branches, thus requiring much more time and labour.

3. Regular tenders were called for publicly for the portions from miles 4 to 17 and it was found that the rates quoted by the contractors were nearly 50 % over the estimated rates (viz. 1938-39 plus 100 %). With a view to bring down the rates, it was proposed to try piecework system and also do some work departmentally in the same miles for which tenders were called for. Experience during the last three months of working has clarified that the piecework system is definitely more economical than the lowest tenders and is successful. As a result of adopting this system, there are at present as many as half a dozen centres carrying on the work under the limited numbers of sub-Divisions. Ample labour is available at present throughout the length of the canal. The very fact that the number of labourers rose from 900 to 7000 within a short period of three months has proved this. A glance at the graph enclosed herewith reveals the rapid rise in labour strength which could be attributed mainly to the opening of new centres along the canal alignment. It is, however, noticed that the labour has a tendency to confine itself to a neighbouring locality and is not prepared to move beyond a distahce of more than a few miles from their villages.

4. To achieve the target of completing the work within the stipulated period, and to reap the benefit of increased irrigation even earlier, it would be necessary to open as many centres as possible at different places along the canal alignment and such new centres alone could absorb the labour available in the

localities which otherwise would be left unexploited. The existing Sub-Divisions cannot increase the number of the centres appreciably as the subordinate staff is raw and inexperienced and the supervision and measurement of the work require close attention of the Sub-Divisional Officers. This difficulty is accentuated by the need of weekly measurements and payments which are essential for the success of the piecework system.

5. As it is, the increasing volume of work in the centres already opened in the first twenty miles of the canal is itself becoming very heavy for the present Division to cope with and the moment has come now to expand the activities and start more centres of work in miles 20 to 44 of the proposed canal. The Executive Engineer, Ghataprabha Left Bank Canal Division has reported that enquiry made by him in the localities disclosed that the people are very enthusiastic over the advent of canal in their areas and they have expressed their willingness to give full co-operation in securing enough labour, if works are started in those areas. Expansion of activities as contemplated above would involve opening of more Divisions and additional staff according to requirements.

6. It may be pointed out here that the sanctioned project for the Ghataprabha Left Bank Canal already provides for two Divisions during construction period and I would, therefore, request that in view of necessity and urgency explained above, Government may kindly be moved to accord immediate sanction to the opening of a new Division with headquarters at Jamkhandi with four Sub-Divisions for the present. The existing Ghataprabha Left Bank Canal Division will look after the works in miles 0 to 32 and the new Division will be entrusted with the works in miles 32 to 44 and the two Branches.

7. A statement showing the cost involved is attached herewith.

8. As the working season will commence in right earnest from October onwards, it is proposed that the new Division should be opened from 1st November 1949 so as to take advantage of the full working season during this year and accelerate the progress to the maximum extent possible. Very early orders are therefore solicited.

Yours etc.,

BR/24-9.

O.N.

ff 3-4

The letter from the S.E, Karnatak Jargu circle, is self-explanatory. The project for the construction of the Ghataprabha Left Bank Canal costing Rs 5,45,22,964 is sanctioned in G.R No 9194/36 of the 5-4-49. The sanctioned project already provides for two divisions during construction. One on called the Ghataprabha Left Bank Canal Dn with three sub-divisions has already been sanctioned vide G.R No 9220/36 of the 14-4-48.

In view of the necessity and urgency as explained in the ff 3-4 letter written, the S E requests that a new Dn with head-quarters at Jamkhandi with four sub-divisions may be opened and the establishment mentioned in the statement may be sanctioned.

2. In G.R No 9493/36 of the 29-9-48, the unit of Establ-

estabt for divisional and sub-divisional offices has been sanctioned. The statement on page 1 ante gives the total estabt proposed by the S.E. for the Divisional and four Sub-divisional offices. The estabt proposed, except the ~~Store keeper, one~~ Asst Store Keeper 1/1 12 Sub-overseers and two Accountants, does not call for any remarks. It is not clear why two Divisional Accountants are necessary. One Divisional Accountant in the Scale of Rs 130-10-250/EB-15-355 may be sanctioned. In the unit there is no provision for sub-overseers posts & surveyors for a sub-divisional unit are observed. It is for orders whether the provision of 12 sub-overseers may be observed, as proposed. The Asstt & Store Keeper is seems for the Divisional Office. As it is not usual to sanction an Asst Store Keeper, it is for orders whether the provision may be omitted. ~~sanctioned~~.

Provision for Sub overseers in lieu of Surveyor may be accepted
KJ 24/12

Only one Divisional Account should be enough for the present
KJ 24/12

It may be omitted
KJ 24/12

201/48
63492.

3. The distribution of marks as mentioned in para 6 of the letter may be approved.

4. On receipt of orders, the papers will be referred to the F.D. for according approval to the proposals.

No. G-108 Office of the Superintending Engineer,
Karnatak Irrigation Circle,
Dharwar, 31 Decr.1949.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject: Territorial Changes.

There are, at present, the following five Sub-Divisions in the Ghataprabha Left Bank Canal Division, out of which, three are entrusted with regular construction of canal work, one is doing contour surveys and designs for Distributaries and the fifth is a Mechanical Sub-Division looking after the plant and machinery:

(1) A Sub-Dn. ... Construction of Ghataprabha Left Bank Canal Miles 0 to 6 and maintenance of the existing Gokak Canal & buildings at Dhupdal.

(2) B. Sub-Dn.... Construction of G.L.B.C.Miles 7 to 14.

(3) C. Sub-Dn.... Construction of G.L.B.C.miles 16 to 32 and 18 miles of the North Branch of the Canal.

(4) L. Sub-Dn. .. Construction of G.L.B.C.miles 15-16 and contour surveys and designs for Distributaries.

(5) Mechanical Sub-Division: Workshop and maintenance of plant and machinery.

1 80167
1615-17

As already brought to the notice of Government in this office letter No.G-19 dated 25-11-49, it has become very difficult for the three Sub-Divisions, viz. A, B & C to cope with the progress of construction work which is increasing every day and at the same time increase the sphere of their activities beyond their present jurisdictions. Two more Sub-Divisions have, therefore, been already proposed for being opened in the Ghataprabha Left Bank Canal Division in order to utilize the available labour in the locality to the best advantage -- vide this office No.G-19 dated 25-11-1949.

2. Similarly with a view to accelerate the progress and complete the whole work as expeditiously as possible proposals for opening an additional Division, as provided in the sanctioned project have also been already submitted to Government - vide this office No.G-108 dated the 25th September 1949. 13

3. As already stated above, the existing construction Sub-Divisions are not in a position to take up additional work which is particularly so in the case of the 'C' Sub-Division, having a wide jurisdiction of 34 miles of canal construction. I do not expect S.D.O., C.Sub-Division to be able to tackle the North Branch for a fairly long time to come. In order to expedite the work on the main canal, I propose to take up miles 33 to 44 of the main canal and assign it to a separate Sub-Division. The latter Sub-Division for the main canal miles 33 to 44 can be conveniently stationed at Mahalingpur. This arrangement can be done by entrusting this work to one of the existing Sub-Divisions, viz:

Malaprabha..

Malaprabha Sub-Division in the Irrigation Projects Division (South), Dharwar, in view of the greater importance of the construction work.

4. The Malaprabha Sub-Division has been looking after the surveys and investigation of the Malaprabha Valley Project consisting of a Dam at Asoga or Bhatwadi and the Malaprabha Right Bank Canal, Manoli river scheme and the Kolchi Barrage Scheme. According to the latest reports of the Geologist, the sites at Asoga and Bhatwadi do not seem to be very promising for constructing either an earthen or masonry Dam. It is, therefore, necessary to investigate some other sites in the valley which naturally will take a pretty long time. The Malaprabha Valley Scheme is also not included in the first five-year programme. It is considered very essential at the present moment to concentrate on works which would ensure quick results to minimise the food-shortage as far as possible. It is, therefore, proposed to allot further investigation of the Malaprabha Valley Scheme to other Sub-Divisions in the Irrigation Projects Division (South) viz., Reconnoissance Irrigation Projects Sub-Division at Dharwar and relieve the Malaprabha Sub-Division for construction work of the Ghataprabha Left Bank Canal after renaming it and shifting its Headquarters from Belgaum to Mahalingpur.

5. The transfer of the Malaprabha Sub-Division from Irrigation Projects Division (South) to Ghataprabha Left Bank Canal Division will naturally make the latter Division rather heavy and unweildy for management. It would, therefore, be best in the interest of work that the 'D' Sub-Division which is, at present, doing contour surveys and designs for Distributaries of the Ghataprabha Left Bank Canal be transferred to the Irrigation Projects Division (South). The construction of 2 miles of the main canal Miles 15 and 16 entrusted to this Sub-Division is being assigned to B Sub-Division. The Irrigation Projects Division (South) is mainly investigating and preparing projects for Major Irrigation schemes in Karnatak and the work in the Designs and Distributary Sub-Division can be conveniently attended to by that Division. This will also reduce the burden on the Executive Engineer, Ghataprabha Left Bank Canal Division due to the addition of an additional Sub-Division as proposed in para 4 above.

6. The above territorial changes do not involve any extra cost to Government and besides being economical, will have the following advantages:-

(i) The Executive Engineer, Irrigation Projects Division (South) will look after the surveys and investigations on both the Right and Left Bank Canals and the Soil surveys simultaneously and this will be able to concentrate work on surveys.

(ii) Being relieved of the work of Surveys and Designs in the D- Sub-Division, the Executive Engineer, Ghataprabha Left Bank Canal Division will be able to devote his attention solely to the construction work on the Ghataprabha Left Bank Canal.

(iii) There will be appreciable progress on construction work which will enable the Executive Engineer to carry out the project to completion as expeditiously as possible.

7. For the reasons explained above, I propose to reconstitute the Divisions and Sub-Divisions and rename them as under with their headquarters as shown against them:--

Ghataprab

19

A

Ghataprabha Left Bank Canal Division.	Irrigation Projects Division (South).
(1) 'A' Sub-Dn.: Construction of Ghataprabha Left Bank Canal miles 0 to 6 and Maintenance of the Gokak Canal and buildings at Dhupdal. at Dhupdal.	(1) Ghataprabha Right Bank Canal Sub-Division:- Investigation of Dam sites in the Ghataprabha valley and Ghataprabha Right Bank Canal - at Belgaum.
(2) 'B' Sub-Division:- Construction of Ghataprabha Left Bank Canal miles 7 to 16 of the Canal- at Dhupdal.	(2) Soil Research Sub-Division:- Surveys and classification of soils in Karnatak - at Dharwar.
(3) 'C' Sub-Division:- Construction of Ghataprabha Left Bank Canal miles 17 to 32 - at Kankanwadi.	(3) Reconnoissance Irr.Proj. Sub-Division:- Reconnoissance and investigation of Major Irrigation Schemes in Karnatak and construction of Relief Models -- at Dharwar.
(4) 'D' Sub-Division:-(Malaprabha Sub-Division transferred from I.P.Dn.(South)):- Construction of Ghataprabha Left Bank Canal miles 33 to 44 -- at Mahalingpur.	(4) Designs & Distributary Sub-Division:- Contour survey and designing of the distributaries of the Ghataprabha L.B. Canal -- at Dhupdal.
(5) Mechanical Sub-Division:-Workshop and maintenance of Plant and machinery -- at Dhupdal.	

B

× Copy furnished to all the Commencement.

A blue-print plan showing the jurisdictions of the proposed Sub-Divisions in the Ghataprabha Left Bank Canal Division is attached hereto.

8. In view of the urgency of opening the new construction Sub-Division, I may kindly be permitted to give effect to the above proposals in anticipation of Government sanction so as to take advantage of the working season which is in full swing now.

2. The letter from the S.E.,Karnatak Irrign.Circle, is self-explanatory. He has suggested therein the reconstitution of sub-divisional charges in the two Dns. viz the Irrign.Projects Dn, South, and the Ghataprabha Left Bank Canal Dn. as shown on page 1? ante. At present the Ghataprabha Left Bank Canal Dn. has five sub divisions and the Irrign.Projects Dn.South has 4 sub divisions. In the reconstitution of sub-divisional charges, the total number of sub-divisions remain the same and each Dn. has the same number of sub-divisions. The S.E. states that the territorial changes do not involve any extra cost to Govt. and besides being economical will have the advantages mentioned in para.6 of the letter.

3. As regards the proposal of opening two sub divisions in the Ghatprabha Left Bank Canal Dn. and the opening of an additional Dn. referred to in paras 1 and 2 of the letter, attention is invited to para.5 of the O.N. dated the 7-1-50. The receipt of the report from the S.E. whether he can take charge of part or whole of the Irrign.Projects Dn. and entrust the work of Ghataprabha Left Bank Canal Dn. in the lower reaches to the second Ex.Engr.under him is awaited -vide G.L.No.201/48-E(III) dated the 6-1-1950.

4. The S.E's proposal to reconstitute the sub divisional charges may be approved as per draft put up for approval. These papers may not be shown to the F.D as the S.E.,Karnatak Irrign.Circle, reports that there is no extra cost in territorial changes in question.

No. N. (Specific - P-13)

E·B·(III)

P.W.D.

The S.E., Karnataka Mgm. Circle

expedited with reference to
yr. No P-13
201/48-E(III), dt. the
6-1-50, under No. 201/48-E(III),
dt. the Feb. 1950

31.1.50

No. G-108 Office of the Superintending Engineer,
Karnatak Irrigation Circle,
C.V. Dharwar, 25th January 1950.

To

The Secretary to Government,
Public Works Department,
Bombay-1.

Subject: Opening of an additional Division for the Ghataprabha Left Bank Canal ~~Kixxxx~~ works.

Reference: Government letter No.201/48-E(III) dated the 6th January 1950.

2. The points in the Government letter referred to are as under:-

(a) whether the Irrigation Projects Division (South) has adequate work;
and
(b) whether the Superintending Engineer, Karnatak Irrigation Circle can take charge of part or whole of the work of the Irrigation Projects Division (South) and entrust the work of the Ghataprabha Left Bank Canal in the lower reaches to the second Executive Engineer under him.

3. Regarding point (a) above, it may brought to notice that the Irrigation Projects Division (South) has, at present, the work of investigation and preparation of very important projects of Dams at Ajra and Hadalga for the Ghataprabha Valley Scheme and Yemgalli in the Dharwar District. The Ajra and Hadalga Dams are estimated to cost more than 4 crores of rupees each. As the original Dam sites have been reported to be not suitable, new sites have been selected and the work of carrying out detailed surveys is in hand. This work involves taking a number of trial bores and tests for ascertaining the foundations and a number of other investigations before undertaking preparation of detailed plans and estimates. It will be agreed that this work is both important and ~~xxxxxx~~ arduous requiring the attention of a wholetime Executive Engineer. The ultimate success of the Ghataprabha Canals which are now under construction, solely depends on the construction of the storage Reservoirs in order to make the canals run for 8 months if not for 12 months. The Yemgalli Project also is equally important and urgent as the people in the locality have been clamouring for the project since long. The work of soil classification in Karnatak and particularly in the Ghataprabha Valley is also conducted under the supervision and guidance of the Executive Engineer, Irrigation Projects Division (South). This work also is as important and urgent as the preparation of the projects for Dams, if the irrigation on the Canals is to be made successful, and requires greater attention of the Executive Engineer. In view of the heavy and urgent work at present devolving upon the Executive Engineer, Irrigation Projects Divisior (South), it has already been proposed to slow down the investigations in the 'Malaprabha Valley' and transfer the Malaprabha Sub-Division to more important work in the Ghataprabha Left Bank Canal Division - vide this office letter No.G-108 dated 31-12-1949.

4. ....

4. As regards point (b), it will be evident from the above elucidation that the work that is being done at present by the Executive Engineer, Irrigation Projects Division (South) is of such nature and magnitude that it cannot be taken over either in part or whole by the Superintending Engineer, Karnatak Irrigation Circle. The executive work in the Divisions and Sub-Divisions involves works expenditure requiring audit and compilation of accounts etc. which cannot be conveniently done in the Superintending Engineer's office where no accounts staff is provided. It would also not be appropriate to entrust executive duties to an Administrative Officer, like Superintending Engineer who may not be able to look to the details and intricacies of executixeon in addition to administrative matters. whixhxthemsexvex axexmexe khanxsufficient forexhimxto mexxmanagexin khexexdayx xhexadministrativx workxhax xonxiderably increasedx

5. In the circumstances, I am afraid, I do not see any other alternative but to continue the Irrigation Projects Division (South) till at least such time, the projects for the Ajra and Hadalga Dams are submitted to Government. It is hoped that the projects in question are likely to be ready by about six to eight months time during which period the Executive Engineer, Irrigation Projects Division (South) will be increasingly associated with the activities of construction work on the Ghataprabha Left Bank Canal.

6. The period of six to eight months as mentioned above will enable me to review the question of reconstituting the Divisional and Sub-Divisional charges in the Karnatak Irrigation Circle as indicated in Government letter No.2100/48-E(III), dated the 9th January 1950 and submit the necessary proposals in this respect with due regard to the speedy execution of the Ghataprabha Left Bank Canal without sacrificing the important project works.

7. In the meantime, the proposal of closing down Malaprabha Sub-Division in the Irrigation Projects Division and opening it as a construction Sub-Division in the Ghataprabha Left Bank Canal Division and transfering the Distributary Survey & Designs Sub-Division from the Ghataprabha Left Bank Canal Division to Irrigation Projects Division (South), submitted in this office No.G-108 dated 31st December 1949, may please be approved with immediate effect.

Budget grants for establishment for the year 1949-50.

GOVERNMENT OF BOMBAY.

PUBLIC WORKS DEPARTMENT.

Circular Memorandum No. P. 50/30476.

Bombay Castle, 8th June 1949.

GOVERNMENT CIRCULAR MEMORANDUM.

The Electrical Commissioner with the Government of Bombay, the Superintending Engineers of Circles, the Electrical Engineer to Government, the Public Health Engineer to Government, the Architect to Government and the Director, Development Department Chawls, are informed that the grants for pay, allowances and contingencies allotted to this Department fo the 1949-50 under the minor head "Establishment" of the major heads mentioned in the margin, are hereby placed at their disposal subject to the remarks made in the following paragraphs.

XVII.—Irrigation, etc.
XLI.—Receipts from Electricity Schemes—*Deduct* Working Expenses.
18—Other Revenue Expenditure etc. (Public Works Department).
39—Public Health (A-5-Public Health Engineering Establishment, and F-Post War Reconstruction and Development Programme—(6) Karnatak Sanitary Division).
47—Miscellaneous Departments (so far as the Electrical Engineer is concerned).
50—Civil Works.
51—Bombay Development Scheme.
52-A—Other Revenue Expenditure, etc.
80—Bombay Development Scheme.

2. The grants at the disposal of the Electrical Engineer to Government under "47-Miscellaneous Departments—F-Examinations—Voted" are as shown below :—

Item.	Provision.
	Rs.
F (1) *Pay of Establishment*—	
Clerks	2,220
Servants	470
Total ...	2,690
F (2) *Allowances, etc.*—	
(*i*) Travelling allowance (Ordinary)	200
(*ii*) Fees to Examiners	1,700
(*iii*) Dearness allowances	1,200
Total ...	3,100
F (3) *Contingencies*—	
Non-Contract Contingencies—	
Service Postage and Telegrams	700
Other Items	2,500
Total ...	3,200
Grand total ...	8,990

3. It has since been decided that the provisions for the gross 'Establishment' and 'Tools and Plant' charges under "50-Civil Works" should be shown under the minor head 'Ordinary' only. Accordingly, the provisions both under 'Ordinary' and 'Post War Reconstruction and Development Programme', under the major head "50-Civil Works", proposed by the Controlling Officers, have been shown in the Budget under the minor head 'Ordinary' only. The Controlling Officers are, therefore, requested to submit in future the necessary budget returns pertaining to 'Establishment' and 'Tools and Plant' only under the minor head, 'Ordinary' of the major head "50-Civil Works".

4. Out of the several new items proposed by the Controlling Officers, the following have been admitted up to the 28th February 1950 in the first instance :—

"50—Civil Works—(Ordinary)"

	Scale of Pay. Rs.
(I) *Southern Circle*—	
One Overseer	80—5—100—8—140—E.B.—10—220—E.B.—10—270.
One Head Clerk	140—10—190.
One Clerk	92—8—140.
Two Clerks	46—3—85—E. B. —4—105.
One Tracer	46—3—85—E. B. —4—105.
One Peon	30—1/2—35
(II) *Central Circle*—	
Two Overseers	80—5—100—8—140—E.B. —10—220—E.B.—10—270.
One Clerk	140—10—190
One Typist	92—8—140
One Clerk	46—3—85—E.B.—4—105
(III) *Karnatak Irrigation Circle*—	
(*a*) Circle Office :—

One Gardner	35—1—45
Two Sweepers ...	30—1/2—35

5. The Establishment sanctioned in paragraph 4 (IV) above for the Gangapur Storage Division in the Deccan Irrigation Circle includes the establishment sanctioned in Government Letter, Public Works Department, No. 8640/36-E(I), dated the 2nd February 1949, for the period upto the 31st March 1949.

6. The following temporary establishment for the office of the Executive Engineer, Government Water Works Division, under the Public Health Engineer to Government, is also sanctioned for a period ending the 28th February 1950 in the first instance under the head "39-Public Health-A-5-Public Health Engineering Establishment" :—

Post.	Scale of Pay. Rs.
One Assistant Draftsman	70—3—85—E.B.—4—125
One Tracer	46—3—85—E.B.—4—105
Two Clerks	46—3—85—E.B.—4—105
One Typist	46—3—85—E.B.—4—105

7. The provisions for the abovementioned new items have been included in the current year's grants of the Controlling Officers concerned. Supplementary demand statements as required by Government Circular Memorandum, Public Works Department, No. P.50/517, dated the 26th January 1949, should not, therefore, be submitted in respect of these items. Supplementary demand statements in respect of new establishment items sanctioned hereafter during the current year should, however, be submitted to Government by the dates and in the procedure prescribed in the Government Circular Memorandum cited above.

8. Government has admitted in the current year's Budget only 16½ per cent of the provisions proposed by the Controlling Officers for Parts—II-B and II-C Budget Estimates, after taking into consideration the provisions for the temporary establishment as compared with the provisions therefor in the 1948-49 Budget. The Controlling Officers are, therefore, requested to adjust their requirements, accordingly.

9. Government have noticed that the Controlling Officers submit, along with the regular Budget estimates, proposals for appointment of additional establishment, that is, during the rush period of the Budget Season, when there is very little time for the requisite scrutiny in this Department and the Finance Department. The Finance Department has, therefore, suggested that the question of putting up a new item for the additional staff would arise only after the proposal has been thoroughly examined and agreed to by Government. Government is therefore, pleased to direct that the proposals for the appointment of the additional staff should not be mixed up with the regular Budget estimates. Such proposals should invariably be

submitted to Government in good time so that they can be thoroughly examined before submission of the Budget Estimates. Government has also noticed that, in certain cases, detailed justification for the creation of additional posts is not furnished and the new item statements are not submitted in the proper form, for want of which, the proposals have had to be turned down by Government. The procedure as stated above should, therefore, be followed before the new items for the additional establishment are proposed in the Budget estimates in the appropriate form.

10. In addition to the above new items, Government has also sanctioned a new item for conversion of certain temporary posts in the Public Works Department Secretariat, into permanent ones with effect from the 1st March 1949. Orders regarding this new item are being issued separately.

By order of the Governor of Bombay,

K. V. JOGLEKAR,
Deputy Secretary to Government.

G. C. M., No. P. 50/30476, P. W. D., dated 8th June 1949.

			10092	4020	14112	13116	4080	17196

(a) Pay of Estt: [illegible]
Recurring Exper.: 2112

One post of Overseer in addition to two posts of overseers already sanctioned is necessary to cope up with the increased work regarding tender papers, scrutiny of projects and constructions etc.

As the construction work will be in full swing, large number of bills have to be paid to the pieceworkers every week and the Divl.Actt. has to deal with a heavy rush of work and a number of complicated questions regarding accounts. Therefore additional Accountant is necessary.

-DO- -DO- [illegible]

One post of a typist in the higher grade is required to cope up with the heavy typing work that will come forth.

Two additional audit clerks in Divl. office for two additional Sub-Dns. propos below.

The post of a Canal Karkun has been sanctioned for four months only, in Kharif season, but this period is quite insufficient. The services of an Irrigation Clerk are essential in the Gokak Sub-Dn.

Assistant Store-keeper .....

No.G-19. Office of the Superintending Engineer,
Karnatak Irrigation Circle,
Dharwar: 23rd September 1949.

To

The Secretary to Government,
Public Works Department,
B O M B A Y.

Subject: Statement showing new items of expenditure on establishment required during the year 1950-51.

Reference: Para 9 of Government Circular Memorandum, P.W.D.No.P-50/30476, dated the 8th June 1949.

2. A statement showing budget estimates under "50-Civil Works Provincial - Ordinary" for additional new establishment required for this Circle during the next year i.e. 1950-51 is submitted herewith for favour of approval and making necessary provision in the establishment budget estimate for the year 1950-51 which will be submitted in due course.

3. A provision for additional post of a senior accounts clerk for this office is necessary. In Government letter, P.W.D.No.9252/36-E(II), dated the 19th July 1949, Government have already approved the continuance of one additional senior accounts clerk by reducing one of the three junior clerks in the grade of Rs.92-8-140 sanctioned in Government Resolution, P.W.D. No.8974/36, dated the 19th Decr., 1947. But this post is necessary in addition to 3 posts of clerks in the grade of Rs.92-8-140.

4. Three posts of overseers are sanctioned for the office of the Superintending Engineer and three for the office of the Irrigation Projects Division (South). As per Government orders contained in Government letter, P.W.D. No.7624/36-E(II), dated the 29th April 1949, two posts of overseers in each Circle office and two in the case of Divisional offices will be considered as sanctioned for the purpose of special pay and will be provided in the original budget. The third post of overseer sanctioned for the Circle office as well as for the Irrigation Project Division (South) is included as new item of establishment for the year 1950-51 and may please be approved.

5. One additional post of a Deputy Engineer for each of the Divisional Offices of the Irrigation Projects Dn. (South) and Ghataprabha Left Bank Canal Dn. has been sanctioned. Provision for special pay of Rs.50/- P.M. for these Deputy Engineers is accordingly made as per instructions contained in Government letter, P.W.D.No.13/48-E (I), dated 20-8-1949 and may kindly be approved.

6. Government desires that the work of the Ghataprabha Left Bank Canal miles 0 to 44 should be completed within 4 years. As the work is scattered over 75 miles including distributories, it would not be possible for one temporary division to manage the construction work in all the length particularly as it is proposed to carry out the works by different agencies, by departmental labour and piece-works instead of on regular contracts. In the original sanctioned project for the work, there is already provision for two Divisions during construction. As the construction is coming to a full swing, it would be necessary to open one additional Division as early as possible to achieve Government's aim to complete the work within stipulated period of 4 years. The exact time when this another division may be started will be reported to Government in due course. Meanwhile, proposals for sanction of two

additional .....

additional Sub-Divisions are submitted herewith and Government may kindly be moved for opening two Sub-Divisions, one at Mugalkhod and another at Rabkavi under the Ghataprabha Left Bank Canal Division, Dhupdal at present, till the opening of another Division as the work progresses.

Superintending Engineer,
Karnatak Irrigation Circle.

P. W. D.

A.B.(III).

Budget Estimates for 1950-51 " 50-C.W. Provincial Estabt. (Ordy.)".

New item of expenditure for Karnatak Irrigation Circle.

In G.R., P. W. D., No. 9220/36, dated the 12-4-48, the sanction was accorded to the creation of Ghataprabha Left Bank Canal Dn., with three sub-Dns. under it for a period of three years in the first instance. The S.E., Karnatak Irrigation Circle, states that the construction work in Ghataprabha L.B.C.Dn. is coming to a full swing and it would be necessary to open a new Dn. for speedy completion of the work within stipulated period of four years. The proposal for opening a new Dn. will be forwarded to the S.E. in due course. In the meanwhile, the S.E. proposes that two additional construction Sub-Dns. one at Mugalkhod and another at Rabkavi under the Ghataprabha L.B.C. Dn. may be opened. The estabt. proposed for each of the new Sub-Dns is as follows:-

No. and Name of Post	Scale of pay	average cost Rs
1 Dy. Engineer	220-15-400.E.B. 20-500-E.B.-25-650.	5052
3 Overseers	80-5-100-8-140. EB-10-220-E.B. 10-270.	6480
2 Sub-Overseers	70-3-85-E.B. 4-105-E.B.-5-140.	2664
1 Clerk	92-8-140	1524
2 Clerks	46-3-85-E.B.-4-105	1848
1 Tracer	-- do ---	924
1 Computor	-- do ---	924
5 Peons including Chowkidars	30-½- 35	1980
		21,396
	+	21,396
		42,792 Total

for two Sub-D

2. Please see paras 3 and 4 of the S.E's letter ✓7 under disposal. For the reaseons given therein, the S.E. wants the following additional posts for the Dns. mentioned against each.

No. and Name of post.	Scale of Pay	average cost	
1 Senior Accounts clerk	100-8-140-10-150 Rs.	1644	For S.E!s. office
1 Overseer	Sanctioned scale	2160	offi''
1 Overseer	-------"--------	2160	For Irrign. project Dn. (South).
1 Overseer	-------"--------	2160	For Ghata-prabha L.B.C. Dn.
1 Divisional Accountant	130-10-250-E.B.-15 - 355	2760	
1 Sr. Accounts clerk	100--8-140-10-150.	1644	
1 Typist	92-8-140	1524	
2 Senior clerks	--do----	3048	
1 Irrign. clerk	46-3-85-4-105	924	
1 Asstt. store-keeper	--- dO--------	924	
		Total. 18,948	

3. The S.E. has proposed the additional estabt. in anticipation of increase work. The annual re-curring expenditure for the proposed estabt. works to Rs. 60,000/- approximately as such the estabt will have to be put up as a new item in the ensuing year's Budget. It is for consideration whether the estabt. may be sanctioned in anticipation of the increase work. If so the papers may be shown U.O. to the F.D. before the new item is put up.

4. Action on paras 4 & 5 of the S.E.'s letter ✓7 within is being taken up separately. ✓

No. G-19 Office of the Superintending Engineer
Karnatak Irrigation Circle,
Dharwar, 25 Novr.1949.

To

The Secretary to the
Government of Bombay,
Public Works Department,
Bombay-1.

Subject: Statement showing new items of expenditure on establishment during the year 1950-51.

G-13

Reference: Government Letter, P.W.D., No.P.50/62803-A(III), dated the 26th October 1949.

2. The post of the second Senior Accounts Clerk was sanctioned by reducing one of the three posts of Senior Clerks in the grade of Rs. 92-8-140. Since the work of construction of Ghataprabha Left Bank Canal is in full swing, the work in this office has also correspondingly increased and the two Senior Accounts Clerks and two Senior Clerks cannot cope with the work. It is, therefore, considered necessary to have the second Senior Accounts Clerk in addition to the three Senior Clerks in the grade of Rs. 92-8-140.

3. Three posts of overseers have already been sanctioned for the office of the Superintending Engineer, and three for the office of the Irrigation Projects Division (South). Government have issued instructions in their letter No.7624/36-E(II), dated the 29th April 1949, that only two posts of overseers are to be considered as sanctioned for purposes of special pay and the provision for special pay for the third overseer is to be made every year as a new item of expenditure. The provision has, therefore, accordingly been made. This additional establishment is quite necessary in view of the increase in technical work on account of the following:-

i) Increased correspondence regarding purchase of machinery;

ii) Heavy programme of surveying;

iii) Large amount of surveys and alignments of canal, cross drainage works, and

iv) Preparing several plans and estimates for canals, cross drainage works, buildings, quarters, offices, sheds, etc. as already reported to Government under this office No.G-40 dated 25th July 1949.

4. Special pay to the Deputy Engineers attached to the two Divisional offices has been provided for, in view of the heavy responsibility they have to shoulder. In the Irrigation Projects Division (South), investigation of important irrigation projects costing in all nearly Rs. 29½ crores is being carried out and the Deputy Engineer has to supervise the scrutinising of the plans and estimates of all these important projects. Similarly in Ghataprabha Left Bank Canal Division the work of Ghataprabha Left Bank Canal costing Rs. 5½ crores is being carried out. The Executive Engineer is not

able.....

able to look to both the construction work as also the administration of the Division. The Deputy Engineer has, therefore, to take up much of the important work and thus give relief to the Executive Engineer to enable him to concentrate on the construction work of the canal. This also involves heavy responsibility. Special pay has, therefore, already been recommended for these two Deputy Engineers in this office No.G-38 dated the 25th October 1949 and has been provided for in the new items of expenditure.

5. For Ghataprabha Left Bank Canal Division, only one additional overseer has been sanctioned. The construction work is being carried out by piece-workers numbering nearly 116. This involves the scrutiny of tender papers, specifications etc. as also the extra item li ts, in addition to the correspondence relating to the same. For this work a separate overseer is quite es ential, as the two overseers have their hands full with the routine and other equally important work.

6. Weekly payments are bein made and the number of bills every week is nearly 11€. The stock limit has also been increased to Rs. 2,20,000/-. In addition, machinery costing nearly Rs. 13 lakhs is to be purchased and the regular stores to be maintained in Ghataprabha Left Bank Canal Division for the construction work would amount to nearly Rs. 10 lakhs. It is, therefore, not possible for one Divisional Accountant and one Senior Accounts Clerk to check the bills and make regular payments every week. In fact, the payments of other firms and contractors, are being delayed for want of this establishment at present. So also it is not possible for one store-keeper to manage the stores costing nearly Rs. 25 lakhs, with the assistance of only one assistant Store-keeper is considered necessary to help the Store-keeper to maintain proper account of the stores. All the above is also equally justifiable in the case of one more Typist. /and one more store-keeper

7. The post of a Canal Karkun has been sanctioned for only four months in Kharif season, but this period is quite insufficient. As the work in the Coka Sub-Division is heavy, the services of an Irrigation Clerk throughout the year are absolutely essential to cope up with the increased work in that Sub-Division.

8. An additional Division has already been recommended for being opened in this office No.G-108 dated the 25th September 1949. With the existing four Sub-Divisions, it has not been possible to open any more centres beyond 21 miles. Eve though ample labour is available, it can not be utilised for want of more centres. In order to utilise the available labour and speed up the construction work so as to complete the work in four years, two more Sub-Divisions are considered quite essential. These two Sub-Divisions are included in the proposal of the opening of an additional Divisio . With the sanction of these two Sub-Divisions, two Senior Cler s in the grade of Rs. 82-8-140 are also necessary for auditing the bills and making payments every week.

9. Thus it will be seen that the establishment proposed is just sufficient to meet the increasing work.

10. The information asked for by Government in their letter quoted above, is given below:-

(i) .....

(i) The cost of work to be executed:-

(a) Ghataprabha Left Bank Canal	5.1/2	crores.
(b) Ghataprabha Right Bank Canal	12	"
(c) Dam at Ajra or any other suitable site.	8	"
	25.1/2	crores.

(ii) The cost of stores to be handled -

(a) Stock ...	Rs.	2,20,000/-
(b) Machinery ...	Rs.	13,00,000/-
(c) Tools & Plant ...	Rs.	6,00,000/-
(d) Other stores such as timber, metal etc. ..	Rs.	4,00,000/-
	Rs.	25,20,000/-

(iii) the approximate cost of the new projects to be investigated:-

(a) Malaprabha Right Bank Canal	Rs. 1	crores.
(b) Dam at Asoga ...	Rs. 3	"
(c) Dam at Ajra or other suitable site.....	Rs. 8	"
(d) Ghataprabha Right Bank Canal	Rs. 12	"
(e) Yemgalli Project ...	Rs. 35	lakhs.
(f) Don river scheme ...	Rs. 13	"
(g) Manoli Dorge scheme...	Rs. 5	Crores.
(h) Soil & Sub-Soil survey for the Ghataprabha Valley Development scheme and all other schemes mentioned above.....Rs.	2	lakhs.
Total: Rs.	29,50,00,000/-

E.B(III) P.W.D.

Submitted with reference to G.L No P.50/62803 (AIII) dt 26-10-49.

2. The SE, Karnatak Irrgn Circle, was requested to give detailed reasons justifying the additional establishment required for the SE's offices of SE, and the Exengrs of Ghataprabha Left Bank Canal Div and the Irrgn Projects Div (South) - vide G.L No. P.50/62803A(III) dt 26-10-49. The information in respect of works to be executed is as under:

	Rs.
(a) The cost of the works to be executed	25 1/2 crores
(b) The cost of stores to be handled	25,20,000
(c) The approximate cost of the new Irrgn projects to be investigated.	29,50,00,000

3. Senior Accounts clerk for S.E's.

201/48
80169 → 60

S.E's office :- Since the work of construction of Ghataprabha Left Bank Canal is in full swing, the work in S.E's office has also correspondingly increased Rs 15 and the two Senior Accounts clerks and two Senior clerks cannot cope with the work. The post of the second Senior Accounts Clerk was sanctioned by reducing one of the three posts of senior clerks in the grade of Rs 92-8-140. As recommended by the S.E, the post of the additional Senior Accounts Clerk in the grade of Rs 100-8-140-10-150 may be sanctioned without reducing the post of a Senior clerk, if approved. Thus there will be 2 posts of Senior Accounts clerks and 3 posts of Senior clerks.

4. -Spl pays to Dy Engrs. and Rs 7/ (para-5-S)

Overseers :- The necessary new item statements have been forwarded to the F.D. separately. ⊗

Superintending Engineer, K.I.C.

BR/24-4.
Comnd.by:

75 35

Early please.
No. G-19

Office of the Superintending Engineer
Karnatak Irrigation Circle,
Dharwar, 26th April 1950.

To

The Secretary to Government,
Public Works Department,
Bombay-1.

Subject: Statement of new items of expenditure on Establishment during the year 1950-51.

pp - 31-32

Reference: Government letter P.W.D.No.201/48-B(III), dated the 11th April 1950,

2. After reviewing the proposals made in this office No.G-19 dated the 25th November 1949, the following minimum additional Establishment for this Circle, shown in the accompanying statement is considered absolutely necessary in view of the reasons enumerated below:- pp-15-17

i) Office of the Superintending Engineer, Karnatak Irrigation Circle:- One additional post of Senior Accounts Clerk in the grade of Rs. 100-8-140-10-150 in addition to the already sanctioned three posts of Senior Clerks in the grade of Rs. 92-8-140 without reducing the post of a Senior Clerk in the grade of Rs. 92-8-140 (vide Government Letter P.W.D. No.9252/36-B(I) dated 19-7-1949) is quite necessary in view of the increase in work due to the construction work of Ghataprabha Left Bank Canal being in full swing and also due to the opening of the Dharwar Irrigation Division, Dharwar.

ii) Deputy Engineers:- Provision of Special Pay of Rs. 50/- per mensem for 2 Deputy Engineers made in this office No.G-19 dated the 23rd September 1949 may be approved.

iii) Overseers:- Provision of special pay of Rs. 20/- per mensem for 3 overseers may be approved.

iv) Divisional Accountant:)
v) Senior Accounts Clerk:) for Ghataprabha Left Bank Canal Division.

Now the construction work of Ghataprabha Left Bank Canal is in full swing. In order to ensure prompt weekly payments to piece-workers whose number has nowadays risen from 200 to 450, and to maintain the progress without any detriment to the routine work, it is physically not possible for one accountant to cope up with the increase in work. One additional Divisional Accountant and one Senior Accounts Clerk are, therefore, urgently required for smooth working from the very beginning of the new financial year.

3. In view of the above facts, it is requested that Government may kindly be moved to accord very early sanction for the minimum additional establishment now proposed. The question of sanctioning the remaining Establishment shown in the statement sent under this office No.G-19 dated the 23rd September 1949, other than the additional Establishment referred to in para 2 above, may for the present be dropped in view of the reduced grant of Rs. 35,00,000/-.

D.A: one statement.

Superintending Engineer, K.I.C.

E.B. (III).

Submitted with reference to the Dy. Secy's note within. p-39

2. The S.E. Karnataka Engrs. Circle has made the proposal ⊗ for sanctioning the following addnl. staff.

⊗ letter No. es-19, dt. the 26-4-50 in page 35 ante.

(a) Circle office

One post of Sr. clerk: (Rs. 92-8-140)

(b) Ghataprabha left Bank Canal Dn.

i) One post of Over-seer (Rs. 80-5-100-8-140-E.B.-10-220-E.B.-10-270).

ii) One post of Dnl. Accountant (Rs. 130-10-250-E.B.-15-355).

iii) One post of Sr. Accounts clerk. (Rs. 100-8-140-10-150).

201/48
33963

42 82

3. As regards the post of Sr. clerk mentioned in para 2(a) above, it may be stated that one of the three posts of Sr. clerks (Rs. 92-8-140) sanctioned in G.R. No. 8974/36 × dt. the 19-12-47, was reduced while sanctioning the addnl. post of Sr. Accounts clerk (Rs. 100-8-140-10-150) in G.R. No. 7573/36-E(II) (*) dt. the 5/10-3-1948. The addnl. post of Sr. Accounts clerk has been continued upto the 28-2-51 vide G.Rs. No. 9252/36-E(II) # dt. the 19-7-49 and No. 9252/36-E(II) @ dt. the 8-4-50, by reducing one of the three sanctioned posts of Sr clerks. p-35 The S.E. states that in addition

× Slip A. Copy attached to docket sheet

(*) Not readily available.

Slip A p-17 Put up below

@ Slip B pp-29-31 Put up below

to the above addnl. post of Sr. Accounts clerk, the reduced post of Sr. clerk is req. in view of the increase in work. The S.E., however, has not given convincing reasons in support there of. In the circumstances, his proposal is may, perhaps, be turned down.

4. As regards the posts of Overseer, Dnl. Accountant and Sr. Accounts clerk mentioned in para 2(b), the S.E. requests that these may be sanctioned for the reasons stated by him in column 11 of the statement. p. 34 It is for consideration whether the three posts in question may be sanctioned in ao. consultation with the F.D.

5. As regards the question of

granting ....

201/48
33963 ~~44~~ 84

granting special pay to the Overseers and Dy. Engrs. attached to the Circle office and Dvl. Offices. The S.E., may be requested to submit the proposal separately giving convincing reasons in support there of.

JN 16/5/50

~~The E.B.(I), (II) and B.B.(II)~~

We may accept the necessity of the following post in the interest of the smooth program of the Chhatpradha Left Bank canal already ~~started~~, in progress. D-5. W.O.

Chhatpradha Left Bank Canal Dn

(1) One Overseer

(2) One Senior Accts clerk

KJ 19/5/50

I am more than convinced that a Second Addl Ch Engr Asstt is necessary for the Chhatpradha Dn. The work is being carried out with piecework agency & every week there are over four hundred

85 ~~45~~

the checks of payment made. All bills are paid by the Dwl. Office. This entails too much work on the Acctt and relief by way of a Second Acctt is absolutely essential. One Senior A/C clerk is also necessary for the same reason. When there is so much money being spent per annum, we ought to see that necessary establishment is given to keep correct accts. I therefore consider that

1 Overseer
1 Acctt
1 S.A.C

may be given

W.O.R. to the F.D., & the 23rd May 1950 (with 7624/36 I, 13/48 I, 9252/36 II, 9252/36/67206 & 9252/36/23475).

FINANCE DEPARTMENT
No. PWRI
Dt.
Serial No. 24/5/50

Give it D (11-6-50)
23/5

Finance Department, PWRS

It is proposed that an addl. staff as mentioned below should be sanctioned at the Ghataprabha L.B. Canal Dn. Dhupdal:

i) one overseer,
ii) one Senior Accounts clerk
and iii) one Divisional Accountant.

Item (c) in the statement at p-36 ante will show the existing establishment at the Divl. office. It will be observed that the present proposal amounts to double the staff at that office. It is argued that the piece work

under the project have increased from 200 to 450. Though this may be true, it cannot be taken to justify an equal number of addl. hands. All the addl work would not be of a nature as to double the actual work to be executed by the Dwd office. A number of them may be minor works requiring a little time for scrutiny etc. Considerations such as reduced grants and the existing financial stringency and the consequent Govt. policy of 'Go Slow' will have to be taken into account before such a proposal for addl staff is accepted in this Deptt. Despite these remarks, the urgency of this addl. staff as emphasised in the foregoing notes of P.W.D. Secy. and the Addl Chief Engineer cannot be overlooked

[In view of the aforesaid position this Deptt may perhaps agree to the addl. posts of one overseer and one senior Accounts clerk, for a period of one year only.

2. The extra cost involved will be Rs 2,160/- excluding allowances, during the initial year.

3. That Deptt. may be requested to point out source to meet the Expenditure involved in the proposal'.

P.W.D.

E.B. (III).

Submitted with reference to u.o.r. dt. the 23-5-50.

2. This Deptt. had proposed the following addnl. staff for the Ghataprabha Left Bank Canal Dn.

i) One Overseer.

ii) One Divisional Accountant

iii) One Sr. Accounts clerk.

The F.D. states in its note that the urgency of the addl. staff emphasised by the Dy. Secy. and the Addl. Ch. Engr. cannot be overlooked That Deptt., however, proposes the following staff only for a period of one year. on account of the existing financial stringency.

i) One Overseer.

ii) one Sr. Accounts clerk.
